Work Experience

UIUX Designer | Wow Factory Design Studio | Chennai (May 2024 - Present)

- Designed a web and mobile application to streamline architects' design process, reducing project completion time by 30%.
- Conducted user research and task analysis to understand workflow pain points in architectural design and collaboration.
- Created interactive prototypes and responsive interfaces focused on clarity, hierarchy, and rapid iteration.
- Collaborated closely with developers to ensure accurate design implementation and performance consistency.
- Defined design system components and reusable UI patterns to maintain scalability across multiple platforms.
- Performed usability testing and feedback with architecture teams to refine features and improve user satisfaction.
- Delivered final designs that enhanced productivity and reduced manual design.

UI/UX & Graphic Designer | CognoRise Infotech | Chennai (Apr 2024 - May 2024)

- Designed a responsive e-commerce landing page focused on conversion optimization and visual storytelling.
- Created mobile application UI designs with a strong emphasis on usability, accessibility, and modern design principles.
- Produced marketing and brand collateral, including posters, brochures, and digital banners, aligned with brand guidelines.
- Utilized Figma and Adobe Creative Suite to prototype, iterate, and deliver pixel-perfect design assets.
- Conducted competitive research and user analysis to enhance layout efficiency and visual appeal.
- Presented design solutions and received positive feedback from mentors and cross-functional teams for creativity.
